## *Tips for this Zoom Webinar*

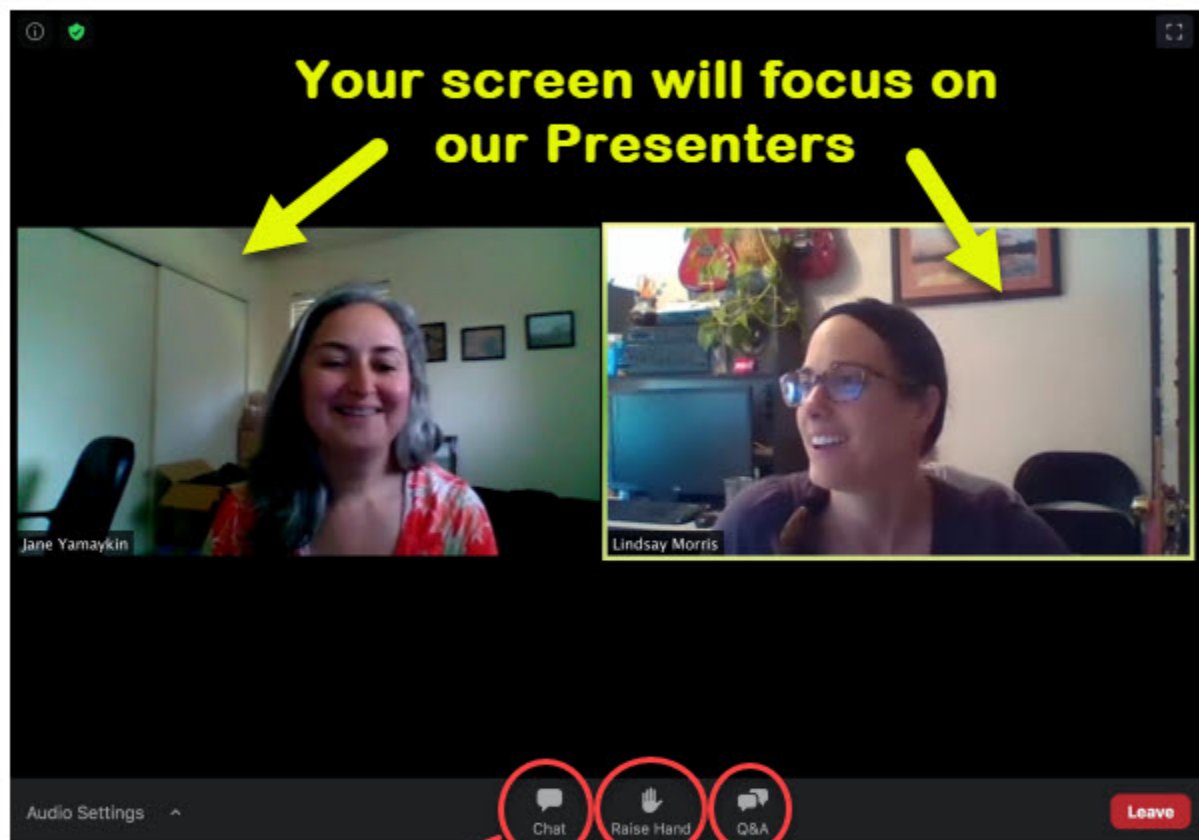

---

Our 2021 Conference will be in **Webinar Mode**. This means that...

- The focus will be on our Speakers and what they are presenting on the screen (So you won't be able to see each other, like in a regular Zoom meeting).
- Attendees are automatically muted (which gives everyone the best sound quality to hear our presenters)
- It gives us a wonderful Q&A (Question and Answer) function

This is what your screen will look like during the Webinar:
